Assignment 4 – Pseudo code

BS Card Game Instructions

Rules:

- Everyone should have the same number of cards.
- The ace of spades should be placed first, but only in the first round.
- After the ace of spades, the next person will place a 2 card. If they don't have one, they can lie and say they put down a 2 card when they actually put down a 3.
- In all of the other rounds, the card placed down first will be the one last placed at the very end of the previous round.
- You can place down one or more of the same card on your turn.
- If you think someone is lying about the card they placed down, call out "BS".
- If they were lying, they get all the cards placed in that round.
- If they told the truth, you get all the cards placed in that round.
- To win, you must have no cards in your deck.
